

Homework and Remote Learning for Foxes Class

Date: Monday 8th February 2021

Date due: Friday 12th February 2021

Phonics/Spellings = Compulsory

Practise the words below:

Certain
Circle
Complete
Consider
Continue
Decide
Describe
Different
Difficult

Timetables = Compulsory

<https://www.timestables.co.uk/multiplication-tables-check/>

Mathletics

Reading Task = Compulsory

Read daily (4x per wk) and record 3 words and work out the meanings in context and check in a dictionary.

PE (Physical Education)

<https://www.youtube.com/watch?v=uYi1kyMeFHQ>

Avengers assemble! Learn to move like a super hero.

Topic (History and Geography) =

What is life like for people that live near volcanoes?

<https://www.bbc.co.uk/bitesize/guides/zpf9mnb/revision/6#:~:text=Volcanoes%20can%20provide%20people%20with,provides%20cheaper%20electricity%20for%20locals>

Write a diary entry describing what it is like to live next to a volcano. Think about the positives and negatives and how this might affect your life.

Science

What are some of the uses for magnetic materials?

<https://classroom.thenational.academy/lessons/what-are-some-uses-of-magnetic-materials-60u64r>

Music

Building on last weeks lesson of reading rhythm.

<https://classroom.thenational.academy/lessons/developing-reading-rhythm-cnj34c>

Art

Design your ultimate super hero!

What would their costume look like? What would their super power be? Where do they live?

RE

What are the holy scriptures of Sikhism?

<https://classroom.thenational.academy/lessons/what-are-the-holy-scriptures-of-sikhism-6nhpce>

There are lots of reasons why people choose to live near volcanoes such as:

- Volcanic rock and ash from eruptions provide fertile land for crops which results in a higher yield.
- Tourists are attracted to the volcano which adds money to the local economy.
- Geothermal energy can be harnessed which means cheaper, more eco friendly energy supplies.
- Precious stones and rocks can be mined and sold.

Even though there are lots of positives for living near a volcano there can be problems too:

- Volcanic eruptions; damage caused to the surrounding area by lava flow.
- Volcanic eruptions can cause earthquakes and tsunamis.
- If there is a volcanic eruption towns have to be evacuated which can be expensive and takes lots of time.
- Eruptions can release toxic gases into the atmosphere that can change weather patterns and affect air quality.
- Landslides can damage towns and endanger lives.
