

Wednesday 20<sup>th</sup> January ☺ ☹ ?

MLJ: To use expanded written method to add two numbers together.

Solve the following sums using a written method.

$156 + 233 =$

$245 + 421 =$

$387 + 411 =$

$363 + 636 =$

$2734 + 223 =$

$1127 + 341 =$

$2252 + 3243 =$

$4167 + 3121 =$

Solve the problems.

A shop ordered 143 apples and 232 pears. How much fruit did they order in total?

There are 265 books in the library and 334 books in the return box. How many books does the library have altogether?

Mr Hall has £1,342 in the bank.

a) Mr Hall puts in £500 more.

How much money does he have in the bank now?

To add 3,812 and 1,400 together, you can add 1,000 to 3,812 and then add 400

a) Use Ron's method to work out  $3,812 + 1,400$

Could you have worked this out mentally?
