

Wednesday 20th January ☺ ☹ ?

MLJ: To use expanded written method to add two numbers together.

Solve the following sums using a written method.

$156 + 33 =$

$245 + 21 =$

$187 + 11 =$

$363 + 36 =$

$134 + 223 =$

$127 + 341 =$

$252 + 243 =$

$1167 + 121 =$

Solve the problems.

A shop ordered 143 apples and 232 pears. How much fruit did they order in total?

There are 265 books in the library and 334 books in the return box. How many books does the library have altogether?

Whitney and Dexter are thinking of a number.

They are thinking of a different number.

If I add 6 to my number I get 435

Whitney

That is interesting!
If I add 60 to my number,
I get your number.

Dexter

What number is Dexter thinking of?
