

Wednesday 20th January ☺ ☹ ?

MLJ: To use expanded written method to add two numbers together.

Solve the following sums using a written method.

$56 + 33 =$

$45 + 21 =$

$87 + 11 =$

$63 + 36 =$

$134 + 23 =$

$127 + 41 =$

$252 + 43 =$

$167 + 121 =$

Solve the problems.

A shop ordered 43 apples and 52 pears. How much fruit did they order in total?

There are 65 books in the library and 34 books in the return box. How many books does the library have altogether?

How many lollipops are there in total?
