

Complete the missing numbers problems by showing me their place value. Use a place value grid to help you.

$$89 = \square + 9$$

$$108 = 100 + \square$$

$$78 = \square + 18$$

$$239 = \square + 30 + \square$$

$$145 = \square + 40 + 5$$

$$342 = 300 + \square + 2$$

Solve the problems using a place value grid.

$$239 = 100 + \square$$

$$239 = 100 + \square + \square$$

$$276 = 250 + \square + \square$$

$$276 = \square + 73 + \square$$

$$165 = 80 + \square + 5$$

$$165 = 115 + \square + 15$$

$$165 = 99 + \square + 8$$
