

9.2.21 MLJ is to express remainders as fractions using short division 😊 😊 ? (Year 6)

<https://www.youtube.com/watch?v=F0jl-JJ942w>

Calculate these divisions using the bus stop method and express the remainder as a fraction. Make sure you simplify the fraction if possible.

1.  $8,365 \div 7 =$

2.  $3,742 \div 5 =$

3.  $12,763 \div 8 =$

4.  $7,104 \div 4 =$

5.  $10,917 \div 6 =$

### RED HOT CHALLENGE

Solve these problems. Express the remainder as a fraction?

a. Share 4,824 blue pencils among 6 people

b. Share 8,275 paper clips among 9 people
