MLJ is to write a setting

Have a go at writing your setting

You must include adjectives

Remember the magic three!

In a land far, far away, many, many years ago there was an island. In every corner, there were five castles. From every castle tower you could see the high mighty mountains.

On top of the mountains were snow caps that looked like a dragon's teeth. Above the mountains were dark, stormy clouds and on the mountain slopes were jagged rocks

At the foot of the mountain was a valley and in that valley there was a deep, dark cave...

Inside the deep, dark cave there lived a very hungry dragon...

You need to re write this using your own description.
